

WCMH Swing Bed Program

WCMH stands for We Care More Here

Let us Prove it!

“Be as good as you can be.....closer to home...with us at Washington County Memorial Hospital!” Sarah Gibson, Swingbed Program Coordinator

- Did you know that Washington County Memorial Hospital has a program designed for those that need an extended stay following an acute hospital visit?
- This program is designed to give those with skilled benefits extended care in a hospital setting prior to going back home. We have the following services available: Physical therapy, Occupational therapy, Speech Therapy, Antibiotic Therapy, and Wound Care.
- Your care team can directly address your specific needs so that you can bounce back after an illness or surgery all while having the staff and equipment of a critical-care access hospital with you.
- If you prefer to be closer to home and family and need a short term stay from an acute hospital visit we are an option for you!
- For further questions please contact WCMH Swingbed Program Coordinator to see if you qualify at 573-438-5451 ext 241
